# **INTRODUCTION**

## **Florida School District Transportation Profiles**

This publication provides transportation directors and other interested persons with a thumbnail sketch of each of Florida's school districts. The data demonstrates the complexity and variety of factors that result in differing costs for student transportation among districts.

This document should provoke thoughtful, probing questions, and encourage efficient and effective data collection to explain many of the variations in costs among districts. Great care should be taken when making comparisons among districts. Conclusions should be drawn with extreme caution and only after careful scrutiny and analysis.

# **Explanation of Methodology**

## **Percentage Enrollment Transported**

Derived by dividing the average number of eligible students reported as transported on the October 2008/February 2009 Automated Florida Education Finance Program (FEFP) Transportation Survey by the Fall 2008 Student Membership reported to the Education Information and Accountability Services Section, Florida Department of Education (DOE).

- State Average: 39.10%
- Mega District Average: 34.33% (districts with 400 or more buses in daily service)
- Urban District Average: 46.63% (200-399 buses)
- Rural District Average: 48.76% (199 or fewer buses)

## **Percentage of State Funding**

Derived by dividing legislative appropriation by total transportation expenditures, including bus replacement (less actual bus purchases, but including bus replacement factor) on 2008-09 Annual Financial Report (AFR) (general and special revenue).

- State Average: 43.63%

## **Operating Expenditures per Student**

Derived from total transportation expenditures on 2008-09 AFR (general and special revenue), including capital projects expenditures for bus purchases, less total expenditures for purchase of buses from all fund sources. This calculation is divided by total adjusted number of students transported from the final transportation calculation (all 2008-09 transportation surveys).

- State Average: \$901.24

## **Operating Cost per Annual Mile**

Derived from total transportation expenditures on 2008-09 AFR (general and special revenue), including capital projects expenditures for bus purchases, less total expenditures for purchase of buses from all fund sources. This calculation is divided by the total annual miles reported by school districts on the Transportation Profile Worksheet.

- State Average: \$3.82
- Mega District Average: \$4.74 (districts with 400 or more buses in daily service)
- Urban District Average: \$2.97 (200-399 buses)
- Rural District Average: \$ 2.96 (199 or fewer buses)

## **Explanation of Methodology (continued)**

### **Total Transportation Expenditures Including Bus Replacement**

Derived from total transportation expenditures on 2008-09 AFR (general and special revenue), including capital expenditures for bus purchases, less total expenditures for purchase of buses from all fund sources, plus 10% bus replacement factor. Bus replacement factor included due to impact of time lines associated with ordering, manufacturing, and delivering district school buses.

- Statewide Total: \$1,056,353,514.28
